

The 6th Asia-Pacific International Conference on Computational Methods in Engineering

September 27-30, Dalian, China

(<http://ICOME2019.dlut.edu.cn>)

Second Round Announcement

The Asia-Pacific International Conference on Computational Methods in Engineering was developed based on eight times of the Joint China-Japan/Japan-China Symposium on Boundary Element Method. The scope of participants expanded from China and Japan to Asia-Pacific countries and regions. This series of conferences provide an academic exchange platform for scholars from China, Japan and other Asia-Pacific regions working in these fields.

The 6th Asia-Pacific International Conference on Computational Methods in Engineering will be held during September 27-30, 2019 in Dalian, China, combined with the 12th Chinese National Conference on Computational Methods in Engineering and the 2nd Conference on Boundary Element and Dimension Reduction Methods.

We are looking forward to seeing you at the conference in Dalian, in this September. We believe that you will enjoy the wide variety of activities of the ICOME2019, as well as your stay in this beautiful, elegant city.
