

The 6-th Asia-Pacific International Conference on Computational Methods in Engineering

September 27-30, Dalian, China

(<http://ICOME2019.dlut.edu.cn>)

Third Round Announcement

The Asia-Pacific International Conference on Computational Methods in Engineering was developed based on eight times of the Joint China-Japan/Japan-China Symposium on Boundary Element Method. The scope of participants expanded from China and Japan to Asia-Pacific countries and regions. This series of conferences provide an academic exchange platform for scholars from China, Japan and other Asia-Pacific regions working in these fields.

The 6-th Asia-Pacific International Conference on Computational Methods in Engineering will be held during September 27-30, 2019 in Dalian, China, combined with the 12th Chinese National Conference on Computational Methods in Engineering and the 2nd Conference on Boundary Element and Dimension Reduction Methods.
